Records Management and Document Imaging Consulting. Onsite Departmental Inventory and Matrix Survey with Investment analysis

Document Imaging Software

Laserfiche Document Imaging gives your organization central control over its information infrastructure, while also offering individual business units flexible content and business process management

The Kodak Info Activate Solution makes capture simpler, workflow more organized, content more manageable, and integration completely seamless.

Document Capture Equipment

CPS Digital Pen is a digital pen that captures, verifies, and securely stores complete electronic documents without the need for scanners, PDAs or tablet PCs, enabling you to easily convert ink to digital data right away.

Kodak Alaris' Document Imaging solutions capture and consolidate data from digital and paper sources, understand and extract valuable insight from the contents, and deliver the right information at the right time.
