

Document management solutions that are immediately archived and automatically active.

THE ACTIVEARCHIVES ADVANTAGE

- The ActiveArchives team has been providing document conversion and records management products, solutions, and services since 1975.
- ActiveArchives is a top choice for turn-key document management solutions and offers the unique reality of ActiveArchives™ (every active record is immediately archived and every archived record is automatically active).
- Three decades of document management and problem solving experience.
- ActiveArchives is celebrated for standardizing records management procedures for every business, one department at a time. We are well known for providing cost effective solutions that produce true, accurate, reliable and trust worthy documents.
- Professional Records Management Consultation, customized Business Workflow processing, and Automated indexing and data capture (including meta-data) from documents and forms
- ActiveArchives teams with industry leading manufacturers and top document conversion companies to provide turn-key document management solutions from capture, to index, to storage, to search and retrieval, to archive or record disposition.
- We help clients meet and exceed regulatory mandates. All ActiveArchives solutions are HIPAA Compliant and we can provide solutions that meet DoD5015.2 requirements.
